Wisconsin Catholics on the Bennett Educational Law.

Don't Like Compulsory Education.

MILWAUKEE, May 27.—In the convention of the German Catholic Societies this morning several speeches were made.

H. J. Spannhorst of St. Louis said the Bennett law presented a political question which Catholics could not ignore, because it directly affected the welfare of their institutions.

Bishop Flisch, in an address, referred to the Bennett law and upheld the right of the church to go into politics when its interests were attacked.

He was followed by Bishop Katzer of Green Bay, who attacked the Bennett law in the bitterest manner. He said the law practically denied the right of the child to obey his parents, by putting its claims before those of the parents. "The friends of the law," he said, "tell us the child has rights which the State must see accorded it, but the parents have more interest in the child than the State. The Governor and his 'little boy' will be taken care of by their parents if the State will let them alone."

As the Bishop proceeded he warned the subject, and fairly brought his hearers to their feet by the intensity of his manner. He became angry, pathetic and sarcastic by turns.

"The matter of teaching English they tell us is what we are fighting," he exclaimed, "but this is not so. English is now taught in our schools. If the State has the right to tell us we must teach English, it will soon be telling us what we shall eat, and what shall be on our tables for the family dinner. They are all of a class, these laws, whether in Wisconsin, Illinois or Massachusetts. They attempt to interfere with personal and parental rights, and, carried out to their logical conclusion, would be very dangerous to church and society."

"This law," the Bishop continued, "was preconceived in the midst of free-thinkers and those opposed to the Catholic Church and her schools. I was told recently by a Mason, that the Bennett law was first suggested by the Masons. The man said: 'I could prove it to you, if I did not put so high a value on my head, that the Bennett law was first agitated in the Grand Lodge of Masons in the State of Wisconsin.'"

The applause which followed these remarks was deafening, and the Bishop had to stand fully half a minute before he could continue. In closing he urged his hearers to oppose all measure like the Bennett law to the best of their ability, and stand firmly by the Church.

**A Thief-Infested City.**

HELENA, May 26.—This city is infested with criminals, and the past few days have witnessed a dozen bold burglaries. Thursday evening the residence of Colonel McCutcheon was burglarized and set on fire and \$1,000 stolen.

Friday night four incendiary fires were started, but extinguished. The Hotel Broadwater was burglarized the same night, and \$4,000 in money and jewelry taken.

The police force has been doubled and a mounted patrol thrown out in the residence portion. The Mayor has issued a proclamation offering \$300 for the body, dead or alive, of any house-breaker, incendiary or highway robber, and warning all persons not employed to leave the city within twenty-four hours. The reign of crime is unprecedented, and the best citizens are deeply concerned.

**A Cashier's Shogging.**

BINGHAMPTON (N. Y.), May 27.—The shortage in the accounts of C. A. Thompson, cashier of the Owego National Bank, is \$75,000. He speculated in stocks.

The amount on deposit at the time the bank's doors closed was \$150,000. One stockholder states he has not the slightest idea the bank will be reopened or reorganized.

Thompson is non-committal, except to declare that if pushed to the wall he will expose two of the stock owners, who are most substantial citizens, as being implicated in the shortage.

**A Demoralized Beef Market.**

By Associated Press.

NEW YORK, May 27.—The shipments of American cattle to Europe, alive and dead, last week amounted to 15,000 head, a falling off of 25 per cent. from the week before, at a loss estimated at \$30 a head. These shipments represent a clear loss of \$45,000 to exporters.

The condition of the English market has become so bad the shippers find it less disastrous to keep their cattle here and lose \$20 a head in freight space, for which they have contracted in some instances as far ahead as September, and then they have a chance of utilizing this freight space for other purposes.

Meyer Goldsmith of this city, one of the heaviest exporters, sent out 504 sheep yesterday in the space he expected to fill with cattle. He said he would lose money on the sheep, but not so much as if he shipped cattle.

A sharp falling off in the cattle exports may be expected, if not, indeed, a total cessation. Never before has there been such demoralization among the shippers. Telegrams asking for relief have been pouring in on the steamship agents during the week, one shipper offering \$30,000 to cancel his contract with one line. The shippers also fear Parliament will pass a law placing a duty on cattle to protect the English cattlemen.

**Increase of Membership.**

By Associated Press.

SARATOGA, N. Y., May 27.—In the Presbyterian General Assembly this morning the report of the committee on narratives gave a summary of the progress of the entire field. The total number of communications were over 800,000, a gain during the year of 103,000. Benevolent contributions to all causes were no less than \$13,000,000. In spite of Sabbath breakers, gambling, intemperance, floods and disease, no year has seen such an increase of members.

Elder Trumbull of California moved a resolution in favor of meetings of sessions at least monthly. Adopted.

Resolved, That elders Flickinger and Griffiths of Iowa urge upon Congress, in the name of the Assembly, the passage of the law permitting the States to prohibit or restrict the liquor traffic now before the Senate.

The motion that the revision committee be allowed to publish their conclusions as early as March or April next was adopted.

**High Water in California.**

By Associated Press.

MARYSVILLE, May 26.—Owing to the melting of great masses of snow in the mountains the valley rivers have been at a high stage for a week past. The few days of unusually warm weather last week had a noticeable effect in a further rise of the streams. The Yuba is almost sixteen feet above low-water mark and is only nine inches below the highest stage reached last winter. The Feather is correspondingly high. Both are likely to subside considerably under the influence of the cooler weather now prevailing. There is no damage or prospect of any further injury from overflow on the lowlands subject to inundation. The rivers have remained higher this spring than ever before known.

**Destroyed by an Earthquake.**

By Cable and Associated Press.

CONSTANTINOPLE, May 27.—The village of Repahie, Armenia, has been destroyed by an earthquake. The mineral springs spouted from the crevasses made in the earth, and the adjacent fields were flooded. The earthquake was preceded by rumblings, which caused the inhabitants to flee. No lives were lost.

**Murdered Himself.**

By Associated Press.

NEW YORK, May 27.—This afternoon John Keenan, of 1884 "boogie" aldermanic notoriety, walked into the District Attorney's office and surrendered himself. He had been in Canada since he was indicted. He gave \$40,000 bail.

## HARRISON'S VIEWS

**On the Tariff as Applied to Sugar.**

**A QUARTZ MILL ROBBERED.**

An Aged Man Suicides by Hanging

Death of Bishop James O'Connor at Omaha.

The President Stirred Up.

WASHINGTON, May 27.—Delegated Smith of Arizona this morning handed President Harrison a telegram from the citizens of Tombstone, Ariz., giving the verdict of the coroner's jury in the case of Robert Hardie, killed by the Apaches near Ruckers Canyon, and complaining bitterly of the lack of proper military protection in that country.

The President endorsed the telegram as follows: "This telegram is submitted for the information of the Secretary of War, with directions to take prompt and effective measures to protect the settlers, and to capture and bring to merited punishment any hostile Indians who have been concerned in the killing of our citizen."

**Harrison on the Tariff.**

By Associated Press.

NEW YORK, May 26.—A special to the Mail and Express from Washington says: During the past week the President, in conversation with a prominent diplomat, expressed the opinion that it was a mistake for Congress to remove the duty from sugar, when it was so easy to obtain reciprocal concessions between sugar-growing nations in favor of American merchandise. He also deprecates the feature of the McKinley bill which increases the duty on carpet wools. No one familiar with the views of the President would be surprised to see a strong message from him on this subject before the tariff bill is disposed of.

**Suicided by Hanging.**

By Associated Press.

NEVADA CITY, May 26.—John Lyons, an infirm man nearly 70 years old, this morning hanged himself to a fruit tree at the home of his daughter's husband, Constable Dillio of this city. He stood on a box while adjusting the rope, and then kicked the box away. Lyons was an old-time hotel-keeper at the town of Washington, but for two years has lived here. He leaves a wife residing at Sunny South, Placer county.

**The Mexicans Agitated.**

By Associated Press.

CITY OF MEXICO, May 27.—Financial circles are agitated with apprehension of what may be done with the silver bill in the United States Senate. The Mexican press simultaneously takes up a discussion of the filibustering scheme against Lower California, the Conservative journals making that affair an excuse for attacks against the Americans.

**Quartz Mill Robbed.**

By Associated Press.

GRASS VALLEY, May 26.—Four of the batteries of the North Star Mill were robbed last night. It is estimated that amalgam worth \$200 was taken. The booty would have been large had the mill not been cleaned up Saturday afternoon. The robbery was committed while the watchman was in another part of the works.

**Without Foundation.**

By Associated Press.

CHICAGO, May 27.—Shufeldt of the distillery firm of Henry H. Shufeldt & Co. says the persistent rumors in circulation that they had joined the whisky trust, or entered into any sort of combination with them are simply sent out for the purpose of affecting the stock of the trust, and are without a particle of foundation.

**Murdered for Money.**

By Associated Press.

JACKSON (Miss.), May 27.—A. N. Kimball, Receiver of Public Moneys, was murdered last night on his way home. The body was found this morning. It is supposed the crime was committed for robbery.

**An Exciting Cotton Market.**

By Associated Press.

NEW YORK, May 27.—There is every indication of a corner in the cotton crop. The bears are climbing over each other in their efforts to cover. At noon July was 42 points above the opening.

**Nothing Accomplished.**

By Associated Press.

WASHINGTON, May 27.—The conference committee on the general pension bill had another meeting to-day, but accomplished nothing, and adjourned until Monday.

**Congressional Proceedings.**

By Associated Press.

WASHINGTON, May 27.—McKinley of Ohio, submitted a conference report upon the customs administrative bill. McMillan of Tennessee, one of the conferees, said he declined to agree to the report, for the reason that he believed the bill would increase taxation. Outside of the sugar schedule, the tariff bill increased the duty to an average of 58 per cent., and the pending measure would raise the average to between 60 and 70 per cent. This would result in preventing imports, a closing of the custom houses, and the destruction of commerce. McKinley said the measure is substantially the bill recommended by the Secretary of the Treasury of the last three administrations, and practically the same as the Mills bill. It was a bill not to increase the rates of duty, but to prevent frauds upon the revenue. The conference report was adopted—yeas, 127; nays, 13; the Speaker pro tem counting a quorum, the Democrats, as a rule, refraining from voting.

The House went into a Committee of the Whole on the river and harbor appropriation bill.

Blackburn was excused from further service on the Committee on Territories.

Allison presented a remonstrance from the citizens of Burlington, Iowa, against the imposition of duties on ores from Mexico.

**Census Instructions.**

By Associated Press.

WASHINGTON, May 27.—The Superintendent of Census has issued the following important order to all census supervisors: "Please instruct the enumerators in cases where persons refuse to answer questions on the population schedule in relation to physical and mental disability (Sec. 22 and 23), or to the question in relation to farms, homes and mortgages (26 to 30 included), to enter in a proper column the words 'refused to answer.' No further steps will be necessary on the part of the supervisors or enumerators, for all legal proceedings will be instituted by the Washington office through the Department of Justice."

**Federal Nominations.**

By Associated Press.

WASHINGTON, May 27.—The President sent to the Senate the following nominations: Rouseville Wildman of Idaho, United States Consul at Singapore; Samuel L. Gracey of Massachusetts, United States Consul at Foo Chow, China; Levi A. Hughes, Collector of Internal Revenue for New Mexico.

The President transmitted to Congress a letter from the Secretary of State and a bill, upon the recommendation of the Pan-American Congress, that an International American Bank be established.

The Supreme Court refuses a rehearing of the case involving the confiscation of Mormon Church property, but delays the act of confiscation pending the consideration of some plan by which the accumulations of the Saints for church purposes may be diverted to some use that will not encourage polygamy. Absolute confiscation is not desired. How would it do to devote the property to the establishment of a non-sectarian system of education in Utah? It would be poetic justice as well as practical wisdom to turn the accumulations of the hierarchy to undermining its power.

The Chairman of the House committee to investigate the immigration question has found that our immigration laws are "astonishingly loose, both in their construction and execution." Having learned this much, it is to be hoped that his committee will report some practical scheme of reform. Every day the conviction is growing that indiscriminate immigration is a great and growing evil. The statistics of pauperism and crime tell that story each year with increasing emphasis. The political statistics of our great cities is even more convincing.

GENERAL MIDDLETON of the Canadian militia is not to be scared into resignation. He does not deny that he looted furs, but says that members of the Cabinet and other officials were in with him, and that if they attempt to push his resignation he will mention names. With this and other scandals coming to the surface it is not surprising that there is widespread discontent in the Dominion. The Bulletin says that the railroads and the Government seem to have founded a syndicate to plunder the people.

JUSTICE MILLER of the Supreme Court writes a letter to explain that under the Federal Constitution he had no choice but to concur in the "Original Package" decision. Yet some members of Congress propose to correct the matter by an Act of Congress. That would simply render it necessary for the Supreme Court to declare the Act unconstitutional the first time the question came up.

The decision of the Interstate Commerce Commission regarding freight rates between San Francisco and Humboldt, Kas., knocks another hole in the leading feature of the Interstate Commerce bill. The exceptions to the long-and-short-haul clause are becoming more generally applicable than the rule.

The courts in both Eastern and Western States are making gratifying rules in denying naturalization to Chinese. In the past a few of these people have succeeded in obtaining papers, but now precedent and practice are setting strongly against them.

The British Government proposes to get out of the corner into which it has been driven by the Opposition in the execution of its legislative program regarding the Tithes bill by making landlords alone responsible for tithes.

A sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Ross's Pile Remedy, which acts directly on the parts affected, absorbs tumors, always itching and affords a permanent cure. Druggists or mail, treatise free. Dr. Ross's Pile Remedy. Sold by S. J. Hodgkinson.

To Weakmen and Bachelors. J. W. O'Leary's heavy French kip shoes are made to order for \$5.00. Try a pair. Repairing neatly and promptly done. 23

Advice to Mothers. Mrs. Winslow's Sarsaparilla Syrup should always be used for children's teething. It soothes the child, cures the gums, relieves all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. 17

Frequently accidents occur in the household which cause burns, cuts, sprains and bruises. For use in such cases Dr. J. H. McLean's Vegetable Oil Liniment has for years been the constant favorite family remedy.

Scrofula

In Its Worst Form—"White Swelling" Cured.

The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases. "My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him

A Confirmed Cripple. I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine woke up his appetite, and soon pieces of bone were discharged from the sore. We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. MCCURRY, Notary Public, Ravenswood, W. Va.
